

Dynamic, I am constantly looking for new challenges to learn, innovate, excel. This area gives you an idea of my academic career, my professional experience and other skills developed on various occasions. In short, you will find an outline of what I like (Aeronautic- Innovations- Management-Entrepreneurship)

EXPERIENCES

Customer Service

AIRBUS

AIRBUS - Since January 2012

- Establish and deliver, for all our civil aircraft, timely and consistent solutions to the engineering issues raised by the customers on Indicating (2012-2016) and Recording (since 2016) systems.
Deliver technical solutions in order to reduce ACARS costs by 3 millions € in 6 months for 2 operators.
- Analyze and Identify potential impact on airworthiness, reliability, quality, operational cost, and launch appropriate corrective action with organization (SBx, Design Offices, Suppliers, EIAX,...).And ensure good adaptation of proposed fix to real customer in-service problem.
- Provide technical presentations to Customers for A350 Entries Into Service, Technical review meetings (TRM), Fair Face To Face, Vendors TRM (Focal point for Thales).
- Tutor end-of-study (ISAE) internship : ACMS demonstrator, useful for workshops with Airlines.
- Create and perform A320 Indicating and A350 ACMS workshops.
- Provide tutoring for Indicating systems newcomers.
- Support and train during 2 months Singapore FHS-TSP Engineering team.
- Initiate and manage "Make It ISI" project for creating the customers information documents in order to ensure and anticipate customer expectations and needs
- Initiate and manage "CAPEX" (CAPitalisation of EXperience) project.
- Perform Customers' feedback study for proposed "CVR readout" services, a 1,6 millions € as expected services revenues.
- Support definition of Customer Support monitoring use cases for ADC/Fomax (part of Skywise project). Skywise is a "Apple Store" like platform.

SKILLS

Computer Science

- Programming languages
- Software Engineering

Languages

- French: mother tongue 
- English 
- Spanish 

EDUCATION

Internal

AIRBUS LEARNINGS

Since 2013

Airline Business and Operations
 CAPEX and Business cases
 Create a Business Plan
 Negotiation Skills : Daily Tools
 Project Management : Into Practice
 Writing&Presenting to Decision Makers
 Product Safety and Liability
 A350 General Familiarization

Candidate : Strategy & Finances

HEC

2020 to June 2022

Strategy :

- Business strategy
- Corporate strategy
- Strategy implementation

Finances :

- Financial analysis
- Valuation
- Investment and financing choices

Mergers and Acquisitions

CBS : COLUMBIA BUSINESS SCHOOL

February 2019 to February 2020

Strategy,
 Valuation, deal math,
 Execution,
 Legal components,
 and risks involved in mergers and acquisitions.

Aeronautical Engineer

ENAC : ECOLE NATIONALE DE L'AVIATION CIVILE

August 2005 to September 2008

Computer Science and Air Traffic Management

Classes préparatoires

LYCÉE MOULAY IDRIS - FÈS MOROCCO

October 2002 to July 2004

Mathematics - Physics - Engineering Sciences.

INTERESTS

Significant

- Soccer/Bonito
- Trips for Cultural and historical discoveries
- PPL (Private Pilot Licence: Patent Theoretical + Flight hours). Not enough enthusiastic after the solo flight.
